A Holiday Message from the Main Street Manager...

As Christmas approaches, people tend to get busier with social events, present buying and end-of-year commitments and tasks. Before getting overwhelmed with the whole season, consider this...

The Spirit of Christmas

Christmas is a time of love, giving and being with the people important in your life. Remember this and don't get too

worried about having the neatest house, the fanciest meal, sending out record numbers of Christmas cards or other little details. It is more important that your home is welcoming and your Christmas spirit shows in your happiness. Keep things simple and friendly to save you stress and give everyone a good time! Have a wonderful Holiday Season!!!
