HEALTH SPOTLIGHT LIFE LINE SCREENING

Salem Unite Methodist Church in Manheim may not be the location that you typically think of for administering lifesaving screenings. However, on Wednesday, October 14, the nation's leader in community-based preventive health screenings will be coming to your neighborhood.

Over 5 million people have participated in Life Line Screening's ultrasound screenings that can determine your risk for stroke caused by carotid artery disease, abdominal aortic aneurysms and other vascular diseases. Cardiovascular disease is the #1 killer in the United States of both men and women - and a leading cause of permanent disability.

A package of four painless Stroke, Vascular Disease & Hear Rhythm screenings cost only \$139. You may

think that your physician would order these screenings if they are necessary. However, insurance companies typically will not pay for screenings unless there are symptoms. Unfortunately, 4 out of 5 people that suffer a stroke have no apparent symptoms or warning signs. That is why having a Life Line Screening is so important to keep you and your loved ones healthy and independent.

These screenings can help you avoid the terrible consequences of stroke and other vascular diseases.

For more information and to schedule your screening, please call 1-800-395-1801.
